*International Admission Counselors*
Responsibilities of the Miami Circle Members

Miami Circle is organized by geographic region in various areas of the United States. A Chapter Chair is responsible for each region and coordinates all recruitment activities taking place in that region. In addition, many volunteers function as “independents,” representing the University at recruitment events in their local communities but are not necessarily affiliated with a geographic group or “chapter.” Miami Circle activities include, but are not limited to, college fairs, information sessions, interviewing prospective students, participating in calling campaigns, hosting receptions, and attending trainings.

- Attend training workshops in the local area (if offered)
- Commit approximately 5 hours per year to Miami Circle activities
- Represent UM and assist admission counselors at local college fairs
- Assist admission counselors at local receptions and information sessions
- Assist the University in identifying and recruiting a diverse student body
- Refer prospects and applicants to the University of Miami
- Call admitted students and welcome them to the UM family
- Other activities depending upon interest level

College Fairs

College day/night programs offer an excellent opportunity for students and their families to meet a variety of college representatives. Typically, between 100 and 200 colleges and universities are represented at these programs. Our admission staff represents the University at “feeder” schools (high schools where we receive many applicants and enrolled students). In many cases, however, a staff member cannot attend a program due to other recruitment commitments in another geographic territory or scheduling conflicts. In this case, we request that a Miami Circle volunteer attend on behalf of the University.

College programs are usually arranged in one of two ways:
- **Fair Style**: You are assigned a table (usually in a gym or cafeteria) for students to browse, pick up literature, and fill out information request cards. This is the most common format used at college fairs. It is also the format we require when volunteers are covering the fair.
- **Classroom Style**: You are assigned to a classroom for the length of the program (example: 7 - 9 p.m.) with three 30 - 40 minute sessions to speak with a different set of students and parents during each session. A general presentation and time for question is the best strategy. If your college fair is a classroom-style format, please contact the Miami Circle coordinator for key talking points, or refer to the Miami Circle FAQ sheet appended to this manual.

**College Fair Registration/Information**: The University of Miami Office of Undergraduate Admission has already taken care of the registration and fees (if applicable) for all college fairs you sign up to attend online. You do not need to worry about registering or paying for a fair. Once selected, you will receive a confirmation email. A copy of the fair invitation and necessary recruitment materials will be sent via UPS and arrive to your residence or business before the fair. The fair invitation will include date, time, and location details in addition to directions and parking instructions if applicable.

**Attire**: Miami Circle members are expected to wear business casual attire to all college fairs. If you have a UM polo shirt, please feel free to wear it to the fair with khakis. If not, wearing nice pants and a button-down shirt or blouse is fine. Also, don’t forget your Miami Circle name tag. If you need a new name tag, please fill out your request for a new tag online using the Miami Circle website miami.edu/miamicircle, and it will be sent to you as soon as possible.

**Arrival**: Please plan to arrive at the college fair site at least 45 minutes before the start of the fair. This should give you enough time to find parking, check in with the host organization, and set up your table. Please bring your shipment of UM materials (including the table banner, pens, and brochures) to display on your table. If there is a dinner scheduled prior to the fair, please plan to arrive in time for dinner. You will have time to set up your table after dinner and before the fair begins.
Shipping UM Materials: When more than one Miami Circle (MC) member is attending a fair, **UM materials are only sent to one MC member.** So don't panic if you did not receive materials. In the confirmation email you receive, it will indicate whether the shipment will be sent to you or someone else. Please email miamicircle@miami.edu if you need to update your address.

How to Set Up Your Table: When arriving at a college fair, the first thing you will do is lay out your UM table banner. Please keep in mind that during the college fair, you are REQUIRED to stand behind the table per the National Association of College Admission Counseling (NACAC) Statement of Principles of Good Practice. A full listing of these rules can be found on page 6 of this manual.

Next, arrange the following materials on your table (all contained in your shipment):

**At-A-Glance Brochures:** (100-300+ per college fair) These are the 5.5” x 8.5” brochures that give an overview about admission, financial aid, fast facts, majors, etc. These should be laid out in stacks of about 50-75 spaced out on the table. You will be referring to these a lot when talking with students and families. This is the main brochure that we use at events.

**Inquiry Cards:** (2-6 packets of 50 cards per college fair) These come in packets of 50 and will be placed on the table closest to the front of the table where students and parents will visit. Place these cards along with the pens on the table. Please be sure to keep all completed inquiry cards after the fair. These cards need to be sent back to the Office of Admission along with the College Fair Evaluation form (template found in Appendix B in the manual). Tip: Take the caps off the pens, students are less likely to walk off with your pen when they don't have caps.

**Scanners:** NACAC fairs offer a scanner that will be used to collect inquiries in lieu of the card. This scanner is returned to college fair officials when the fair ends. UM will receive the data electronically. If you use the scanner, inquiry cards should not be utilized unless the student has not registered for the NACAC. The NACAC registration can be found at the front entrance. At the NACAC fairs, the inquiry cards are for back-up purposes only. The scanned information is the same information requested on the inquiry card, filling out both is redundant.

**Viewbook:** (1-10 viewbooks per college fair) This is the 8.5” x 11” book. These books are used for reference only. Only a few viewbooks are shipped for events. Please give the viewbooks only to the most serious students. It is best to place the viewbooks in the center of the table and open them up to an interesting page for all to view.

**Frequently Called Numbers:** (50-200 per college fair) These vertical cards list frequently used websites and phone numbers at UM. If a student has a specific question about a school/college or would like more information about a specific student services-related department, please give the student the card.

**Transfer Brochure:** (1-10 per college fair) This brochure details recommended courses, scholarship information, and important dates.

**Additional Forms:** The following materials can be downloaded off the Miami Circle website and are located in Appendix A and B of this volunteer manual. Both will be helpful to you before and after a college fair.

**Appendix A:** College Fair FAQ Sheet - This sheet is helpful and should be printed out BEFORE you leave for a college fair to bring with you as a “cheat sheet” when answering questions from prospective students and families.

**Appendix B:** College Fair Evaluation Form - This form should be filled out AFTER you attend the college fair with your comments and overall feedback about your college fair experience. Please send this form to the Miami Circle coordinator with the collected inquiry cards within one week of the college fair. The form can be found and submitted directly on the Miami Circle website at miami.edu/miamicircle/fairs. Click on menu item “Evaluation Form.”

***IMPORTANT NOTE*** - If you are unable to attend a confirmed program, please call or email Gabriela McLeod in the Office of Undergraduate Admission as soon as possible. Gabriela McLeod can be reached at miamicircle@miami.edu or 305-284-5313. A “no show” at this type of program is detrimental to the University’s credibility and reputation.
NACAC Statement of Principles of Good Practice

As a member of the National Association of College Admission Counselors (NACAC), the University of Miami follows the Statement of Principles of Good Practice in College Admission and Recruitment. The following excerpts outline principles relating to volunteer participation in student recruitment activities:

**Colleges and Universities agree that they will:**
1. Accurately represent and promote their schools, institutions, organizations, and services.
2. Not use disparaging comparisons of secondary or postsecondary institutions.
3. Not offer or accept any reward or remuneration from a secondary school, college, university, agency, or organization for placement or recruitment of students.
4. Be responsible for compliance with applicable laws and regulations with respect to the students right to privacy.

**Information Sessions**

The Office of Undergraduate Admission hosts information sessions for students and their families in major cities throughout the year. Recruitment volunteers will be notified of these events through the Miami Circle website and via email. You must register via email to attend. If you wish to invite a student, please contact the Office of Undergraduate Admission so an invitation can be sent.

The typical format of the information session is as follows:
1. Registration area for guests to sign in
2. Meet and greet
3. Presentation by an admission counselor
4. View of the campus via a DVD presentation/Powerpoint/video
5. Question and answer session
6. Conclusion with small group discussions

**Arrival:** We ask you to arrive at least 30 minutes to 1 hour before the start of the session to assist with registration and other activities. Admission staff members will tell you how you can assist with the program.

**Attire:** All information sessions require business casual or professional dress and we request that volunteers wear their Miami Circle name tag. If you are missing a Miami Circle name tag, you can request one here [miami.edu/miamicircle](http://miami.edu/miamicircle).

**Information Sessions are geared toward a variety of audiences:**

**Regional Information Sessions for Prospective Students/Families** - These information sessions are hosted by admission staff and are geared toward students and families who have not yet been admitted to the University of Miami. These occur in selected cities across the United States once per semester (Fall, Spring, and Summer).

**Admitted Student Receptions or “Yield” Receptions** - These are receptions/information sessions hosted by the admission staff and are geared towards students and families who have been admitted to the University of Miami. These occur in major cities across the United States in late March or April and are by invite only for admitted students in the surrounding area.
Open Houses

Open house programs are information sessions held four times per year for both prospective and admitted students and their families. Open houses are held on the University of Miami campus in Coral Gables, FL. These programs are more in-depth than regional information sessions. Students and families will participate in an opening session, attend an academic interest session highlighting the opportunities at one of our nine schools and colleges, and attend Showcase the U, a college fair-style event where various UM departments host a table for students and their families to gather information and ask questions. The Miami Circle member’s main duties include registration, greeting guests, and sharing UM experiences.

Calling Campaigns

The Office of Undergraduate Admission conducts calling campaigns to our recently admitted students, and we invite Miami Circle members to assist in making valuable connections with incoming UM students in your area.

The purpose of calling campaigns is to connect with admitted students and students who have committed to the University of Miami. The Office of Undergraduate Admission uses this campaign as part of a larger yield campaign (a process to get admitted students to actually enroll at UM). This campaign is an opportunity for admitted students to hear from you as a University of Miami alumnus(a) or parent of a current UM student in their local area who can act as a resource during the decision-making process and as a UM link before they move to campus. Calling campaigns are a great way to make a personal connection and share your experiences with future ‘Canes as they make the transition to UM.

When conducting these important phone calls, the Office of Undergraduate Admission will provide the Miami Circle volunteers with:

1. A script for conversation.
2. A list of the admitted students in your local area, including first and last name, phone number, high school, school/college and major.
3. A list of resources that will answer many of the frequently asked questions admitted students have as part of the next step in the admission process.

Miami Circle members interested in signing up for calling campaigns will be sent an email to register. A list of resources can be found at miami.edu/miamicircle
Guidance Counselor Contact

It is helpful to become acquainted with the high school guidance counselors in your area. They can be a good source of information about what colleges their students are interested in and how many actually attend private universities. Encourage them to include UM on their college fair invitation list. If possible, get the guidance/college counselor’s business card to forward to the Office of Undergraduate Admission so that we may be in contact with the high school in the future.

Admission Requirements

The University of Miami actively seeks students who demonstrate academic strength, personal integrity, and seriousness of educational purpose. Admission is highly selective, and is offered to those applicants whose credentials are most academically sound and whose interests, aptitudes, and preparation can contribute to the strengths of the University.

Over the past few years, UM has enrolled an increasingly stronger freshman class. In 2014, over 66% of entering freshmen ranked in the top 10% of their graduating class. The mid-range for the SAT was 1270-1480 and ACT was 28-33. Most students have an A- unweighted high school GPA. Our average weighted GPA is 4.2.

The Admission Committee considers each application individually, taking several factors into consideration before making a decision.

Documents required for freshman admission include:
1. Application for admission* (Common Application ONLY - www.commonapp.org)
2. Official high school transcript
3. Guidance counselor evaluation
4. Teacher evaluation
5. Standardized test scores (SAT or ACT - no preference. UM does not consider the writing sections.)
6. Essay
7. A non-refundable $70 application fee

Transfer admission in most fields of study may be granted to students who:
- Have graduated from high school and have taken at least one college course.
- Present a cumulative grade point average of at least a 3.3 (certain majors require specific GPAs).
- Are in good academic standing at the last institution attended.

If the student has earned 30 or more transferable credits from other accredited colleges or universities, only college coursework/transcripts will be required. Students with fewer than 30 approved credits must also submit a high school transcript and SAT or ACT scores.

Transfer students must submit:
1. Application for Admission* (Common Application ONLY - www.commonapp.org)
2. An official transcript from each institution attended (students with fewer than 30 approved credits must submit a high school transcript and SAT or ACT scores)
3. Registrar Report
4. Academic Evaluator (recommendation)
5. Final Report (only for students with fewer than 30 approved credits)
6. A non-refundable $70 application fee

*Note: The School of Music and the Bachelor of Fine Arts programs in Arts & Sciences require an audition, in addition to completion of a Supplemental Application. These programs, along with Nursing, accept transfer applications for the Fall semester only.
EARLY DECISION VS. EARLY ACTION

Early Decision I and II (EDI/EDII) are binding agreement. A student engages in a contract with UM that says the student will attend UM if he/she is admitted (no exceptions). Prospective students can only apply to one institution Early Decision. This option is for students who “bleed orange and green.”

Early Action (EA) is a non-binding agreement. A student applies early, receives an admission decision early, and is not committed to attend UM. A student who applies Early Action to UM can apply to as many other institutions as he or she pleases. The advantage is that the student receives an admission decision and hears back about financial aid earlier than he/she would when applying Regular Decision.

University of Miami offers freshman academic scholarships ranging from $5,000 annually to the full cost of attendance.

Students considered for an academic scholarship have significant academic achievement. Those selected to receive a scholarship take the most challenging curriculum, earn the highest grades, and present either SAT or ACT scores that place them at the top of our applicant pool. Students are automatically considered for an academic scholarship when they apply for admission to the University. Some of the University’s Premier Scholarships require a separate application. See page 12 for additional information on academic scholarships.

If a student will pursue need-based assistance, make sure they complete both the Free Application for Federal Student Aid (FAFSA) on the web (available January 1) at www.fafsa.gov and the CSS/Financial Aid PROFILE on the web (available October 1) at profileonline.collegeboard.org.

Bright Future’s Scholarship (Florida applicants only):

UM DOES ACCEPT BRIGHT FUTURE’S Scholarships! UM also accepts FRAG Scholarships. The FAFSA is not required to receive either of these awards. miami.edu/fla

Note to Miami Circle Members Regarding Admission of Students

In recent years, the University of Miami has become increasingly selective. Our goal is to enhance our selectivity and compete with the nation’s most prestigious universities. As a result, our office has received more attractive candidates for admission. While this is certainly gratifying, it requires us to deny admission to prospective students who in previous years might have been admitted. Therefore, as a matter of policy, we avoid speculating on the potential of a student’s admission to the University.

Each student’s candidacy is evaluated with care and sensitivity. Objective criteria such as grade point average, strength of curriculum (number of AP/IB/AICE, honors or accelerated courses), rank in class, and standardized test scores are the main focus of evaluation. However, subjective data, such as essays, extracurricular activities, counselor recommendations, and other distinctive qualities are also important factors. If you become aware of unique qualities that might not be evident in an application, we encourage you to share that information with us.

Selective admission is a complex and difficult process to understand and predict. As the University of Miami increases its selectivity, we ask you to resist speculating on chances for admission. Sometimes Miami Circle members are put in the inevitable position of advocating for, or being asked to influence the admission of sons and daughters of family, friends, and neighbors. We understand this, and sometimes it cannot be avoided. In such instances, we caution against making any promises.

Academic Scholarships

The University awards academic scholarships to incoming students based on their academic achievements. All applicants are automatically considered for academic scholarships. Recipients of academic scholarship take the most challenging curriculum, earn the highest grades, and present either SAT or ACT scores that place them at the top of our applicant pool.

The University of Miami President’s Scholarship ranges from $8,000 to $28,000 annually. The ‘Canes Achievement Award ranges from $4,000 to $16,000 annually. University of Miami Premier Scholarships, such as the Singer, Stamps, Hammond, and Jenkins Scholarships, cover the full cost of tuition and up to the full cost of attendance. Some of these premier scholarships require a separate application. The Scholarship Committee will make the final determination on all scholarship awards. For more information, visit miami.edu/scholarships.

The FAFSA and CSS/PROFILE are not required to be considered for academic scholarships.

Additional Merit Scholarships

National Merit Scholarship

National Merit finalists who are admitted and name the University of Miami as their first choice qualify for no less than a minimum of a $16,000 scholarship and a $1,000 or $2,000* National Merit Award. National Merit Corporate Sponsored award winners will receive no less than a minimum of a $16,000 scholarship and will continue to receive their Corporate-Sponsored award as long as they meet renewal criteria as determined by National Merit Scholarship Corporation. National Merit $2,500 one-time award winners will receive no less than a minimum of a $16,000 scholarship. During their second year of enrollment at UM, they will begin receiving a $1,000 or $2,000* institutionally sponsored merit award for no more than three years (or four years if in an approved five-year undergraduate program).

*To receive a $2,000 award, students must demonstrate financial need upon submission of a FAFSA and CSS/PROFILE prior to each academic year and based on University need-analysis policies.

*Florida National Merit Incentive: student must have received National Merit and National Achievement Award and be a Florida resident.

Florida Bright Futures Scholarship

Awarded to Florida residents by the state; application through the high school.

R.O.T.C. Scholarship

Four-year merit-based scholarships of various amounts (up to full tuition) offered by the branches of the military.

Grants

Also known as gift aid, grants may be based on merit and/or need and are administered by the University of Miami and/or federal and state agencies. These gifts are not repaid.

- Coral Grants – Need-based
- Federal Pell Grant – Need-based
- Federal Supplemental Education Opportunity Grant (SEOG) – Need-based
- Florida Student Assistance Grant (FSAG) – For Florida residents, need-based
- William L. Boyd, IV, Florida Resident Access Grant (FRAG) – For Florida residents
- Jose Marti Scholarship Challenge Grant – FL Resident, 3.0 unweighted GPA, parents naturalized in Hispanic/Caribbean/Central and South American Countries

Don’t see your major? Explore your options miami.edu/independent

*Subject to change.
Minimum Eligibility Requirements

All international students whose native language is not English, including those applying for transfer from U.S. institutions, are required to submit the results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). The TOEFL code for the University of Miami is 5815. The academic requirements for applicants from certain countries are noted on the Minimum Eligibility Requirements for Admission Chart found at miami.edu/intleligibility. These requirements are intended only as a guide to applicants and are subject to further qualitative evaluation. For more information, visit miami.edu/intladmission.

How to Apply

The University of Miami accepts only the Common Application (commonapp.org) for admission. To get started on an application to the University of Miami, visit the Common Application website and create an account miami.edu/apply.

Freshman Application Options

Early Decision (EDI)
Priority admission and scholarship consideration is given to those first-year applicants who apply under Early Decision I (EDI). The deadline to apply under EDI is November 1. This option is binding and students will learn of the admission and scholarship decision in late-December. If you are admitted under EDI, you are not required to indicate your intention to attend the University of Miami until May 1.

Early Action (EA)
Priority admission and scholarship consideration is given to those first-year applicants who apply under Early Action (EA). The deadline to apply under EA is November 1. This option is for students wishing to learn of the admission and scholarship decision in mid-February. If you are admitted under EA, you are not required to indicate your intention to attend the University of Miami until May 1.

Early Action (EDII)
Priority admission and scholarship consideration is given to those first-year applicants who apply under Early Action (EA). The deadline to apply under EA is November 1. This option is for students wishing to learn of the admission and scholarship decision in mid-February. If you are admitted under EA, you are not required to indicate your intention to attend the University of Miami until May 1.

Regular Decision (RD)
Regular Decision (RD) is the standard application option. See accompanying chart for appropriate deadlines. The final deadline to submit the application for admission is January 1. RD students are notified of their admission decision by mid-April.

Applying to Special Programs

Dual-Degree Programs - UM offers dual-degree programs, combining undergraduate and graduate study in exercise physiology, Latin American studies, law, marine geology, medicine, and biochemistry and molecular biology. Submit the application for undergraduate admission and the specific dual-degree program application complete with supporting documents by November 1 miami.edu/dualdegree.

Fine Arts Programs - Students applying to the Frost School of Music may apply under the RD option only and are required to submit a supplemental application and an audition or portfolio review. Students applying for the Bachelor of Fine Arts Program in Art must also submit a portfolio but may apply EA or RD. Supplemental applications for the B.F.A. programs can be downloaded from miami.edu/apply.
Transfer Options
Transfer admission may be granted to students who have earned credit from other accredited colleges or universities, who present a strong cumulative grade point average, and who are in good standing at the last institution attended. The faculty of the school or college in which you plan to enroll will determine which credits may be counted toward meeting graduation requirements. Submit an application for transfer admission, your official college transcripts, and a letter of recommendation by the priority deadline of April 1. The School of Architecture portfolios are due February 1. Frost School of Music applications are due December 1 and require an audition for all transfer applicants.

Conditional Admission
Academically qualified students who are unable to take the TOEFL/IELTS or whose TOEFL/IELTS score does not satisfy the minimum requirement may be offered admission to undergraduate programs with the condition that they successfully complete Level Five of the University of Miami Intensive English Program (IEP). Students enrolled in IEP who fulfill their English requirement by passing the Institutional TOEFL Test (ITP) offered at the University of Miami during the semester are still required to attend and complete all of their current IEP classes. They will receive a grade in each of their classes, regardless of their score on the UM ITP exam.

English Translations
Documents in a language other than English must be accompanied by certified English translations. Please remember to send both.

Advanced Standing Credit
To have Advanced Placement, International Baccalaureate (higher levels) and Cambridge Advanced International Certificate of Education examination scores evaluated for University credit, request that your scores be sent directly to the Office of Admission from the College Board or your regional IB/AICE office. To view AP or IB credit equivalencies, please visit miami.edu/admission/ap or miami.edu/admission/ib.

They will receive a grade in each of their classes, regardless of their score on the UM ITP exam.
Scholarships and Financing

Options and Opportunities

Financial Information for U.S. Citizens and Permanent Residents

The University’s Office of Student Financial Assistance and Employment offers some of the most innovative and comprehensive financial aid packaging available in the nation. There are many ways to finance your education, and the University assists individual families in finding the most compatible program to suit their needs. Sources of financing include scholarships and grants, educational loans, student employment, and tuition payment plans. Please note that federal and state-based financial assistance is offered only to admitted U.S. citizens and permanent residents. To be considered for all types of need-based aid, students must submit both the Free Application for Federal Student Aid (FAFSA) and the CSS/Financial Aid PROFILE.

- FAFSA, on the web at www.fafsa.gov, is used to determine your eligibility for state and federal need-based aid including direct loans, federal work study and grants.

- CSS/Financial Aid PROFILE, on the web at profileonline.collegeboard.org, is used to determine your eligibility for University of Miami institutional need-based funds. Completing the CSS/Financial Aid PROFILE will only determine your eligibility for institutional need-based funding from the University of Miami - it will not affect your eligibility for federal aid as determined by the FAFSA. Learn more at miami.edu/finances.

Academic Scholarships

The University of Miami is committed to attracting international students with recognized academic achievement in high school by offering numerous scholarships. Eligible recipients include honors students, as well as those with special talents in areas such as music and athletics.* The University of Miami President’s Scholarship typically ranges from $8,000 to $28,000 annually. The University of Miami Premier Scholarships, Singer and Stamps, cover the full cost of tuition and up to the full cost of attendance, respectively. Academic scholarships are based upon a completed application for admission. To be considered for a merit scholarship, candidates must submit a complete application for admission with all academic credentials by November 1. Applicants completing high school outside the United States should NOT submit SAT/ACT scores to be considered for a University of Miami President’s Scholarship. There is no separate scholarship application form. Scholarship candidates must also provide a bank letter indicating they will be able to cover the difference between the scholarship award and the total cost of attendance. The Scholarship Committee will make the final determination on all scholarship awards. For more information, visit miami.edu/intlscholarships.

Student Employment

Being a student employee while attending classes is a common choice for University of Miami students. Working while in school helps students pay for tuition, books, and other expenses. It also provides students with extra spending money and a great learning experience.

The University of Miami is at the forefront of employment programs nationally. All of our programs stress the acquisition of good work habits and enhance career development and marketability. The skills obtained complement your academic performance and tell future employers of your ability to succeed in a professional setting.

International students are eligible to work on campus under all employment programs funded by the University of Miami. Federal- or state-funded programs are eligible only to U.S. citizens or legal residents. To be eligible for on-campus employment, international students must be in valid F-1 status, which includes pursuing a full course of study. They may work during the summer, provided they have proof of enrollment for the fall. For more information, visit miami.edu/ose.

Tuition and Fees

The Office of Student Account Services provides a number of services, such as the Monthly Payment Plan. Please contact the Office of Student Account Services directly for more information. miami.edu/osas

*Students who meet the minimum guidelines are not guaranteed a scholarship.
Learn English and Live the American Experience

With its rich blend of language and cultural interaction, the University of Miami campus is ideal for listening to and understanding English from all corners of our large nation. UM’s student body represents every state—north, south, east, and west—a real “American experience” of traditions, accents, and dialects. Enhancing this interaction is the tropical haven of our campus in Coral Gables, Florida, a beautiful suburb that’s minutes away from the major international city of Miami. Few U.S. universities can offer the cultural and educational scope of Miami—or can match the climate and overall environment. Our Intensive English Program (IEP) students are truly University of Miami students, with access to every facility and service, including academic advising, international student guidance and programs, cultural adaptation and orientation sessions, assistance with living accommodations, and more. Equally important, IEP students are able to practice their newfound English skills with native English speakers and have opportunities to make many new friends. Extracurricular programs sponsored by the IEP include field trips, parties, and cultural and recreational events. In addition, satisfactory completion of the IEP’s highest level will satisfy the English language requirement for undergraduate admission to the University of Miami, if the student is academically admissible: miami.edu/iep

“My experience at the IEP was very productive. It helped me improve my English skills. The IEP offers its students an excellent curriculum taught by well-qualified instructors using excellent academic methods. The IEP courses exceeded my expectations. I not only attained my career goals but also made very good friends. Moreover, some of the best things about studying at the IEP were the commitment and passion that the professors and the director have shown toward their students’ education. The IEP is a great option for anyone who wants to study English in the United States.” — Driss Krafess, Morocco

IEP AT A GLANCE

- Six start dates per year
- 6-week and 14-week sessions
- Small class size for individualized attention
- Dedicated, master faculty
- Five levels, from beginning to advanced
- Content-area classes available

IEP FAST FACTS

IEP faculty members have lived overseas and learned other languages.

All classes, as well as faculty and administrative offices, are in one location, which eases the transition to a new environment.

IEP students can live in UM dormitories on campus during the summer session. During the fall and spring session, only off-campus housing is available to IEP students. IEP offers assistance in locating off-campus housing.

Students from more than 100 different countries have come to study at the IEP.

Students say they choose us simply because UM is the “best university,” and they call the IEP the “best program” available.

APPENDIX A

Career Planning
The Toppel Career Center offers students a dedicated staff of career advisors and resources including:

- Access to career expos, career fairs, company info sessions, on-campus recruiting and networking with hundreds of potential employers
- Workshops, skill development sessions, mock interviews, and resume writing classes
- Extensive in-house library of test prep, graduate school and employment guides
- HireACane.com, an online job search tool that helps organize resumes and related materials, and taps into numerous job listing services

Costs
Estimated tuition, fees, room and board for a full-time undergraduate student is $44,400
On-Campus room and board: $12,908 (Room and meal plan costs will vary, depending on the type selected.)

Degree Programs
More than 30 undergraduate and graduate degrees are offered, including Bachelor of Arts (B.A.), Bachelor of Fine Arts (B.F.A.), Bachelor of Science (B.S.), Master of Business Administration (M.B.A.), Juris Doctor (Law), Doctor of Medicine (M.D.) and Doctor of Philosophy (Ph.D.)

Honor Code
All undergraduates are required to subscribe to the Honor Code of the University of Miami, which prohibits dishonesty in all academic work. Enforcement of the Honor Code is student-administered.

Honor Societies
- 41 Academic Honor Societies (including Phi Beta Kappa)

Special Programs
- More than 80 Study Abroad Programs in 35 countries
- Advising forums for undecided students

Dual-Degree programs
UM offers dual-degree honors programs, combining undergraduate and graduate study in exercise physiology, Latin American studies, law, marine geology, medicine and biochemistry and molecular biology. For more information, visit miami.edu/dualdegree.

Residential Colleges & Meal Plans
- Approximately 83% of freshmen live on campus; and 37% of total student body
- Freshmen are required to live on campus unless their family resides in Miami-Dade or Broward County
- Housing Deadline: May 1st or ASAP (pay housing deposit immediately after paying enrollment deposit)
- Two-styles; all double and single rooms; towers with traditional corridor set-up, common bathrooms; suites with two double rooms and connecting bathroom; freshmen will typically be housed in towers
- University Village: 790-bed furnished apartments for Juniors, Seniors, Grad/Law students
- Free laundry in all of the dormitories
- Freshmen CANNOT have cars on campus; Sophomore through Senior year they may
- Freshmen must choose either the Unlimited-meal, 19-meal, 14-meal, 8-meal, or the 8 Kosher-Plus Meal Plan option, transfer and off-campus students may choose the 50-, 75-, or 100-Block Meal Plan option.
- Transfers are able to apply for housing; however, housing is not guaranteed for transfer students

Admission Criteria
Freshmen
- SAT range: 1270 - 1420 ACT range: 29 - 33 (all scores reported do not include writing portion)
- Avg. Weighted GPA: 4.2 or A- Unweighted; over 63% rank in top 10% of HS class, 44% in the top 5%
- Applications: 33,416 Freshmen class: 2,000 students
- Requirements: Common Application, HS transcripts, 1 Essay, 1 Counselor Evaluation, 1 Teacher Evaluation, SAT or ACT scores (do not count Writing section of either test)
4 Application Options:
  • Early Decision I (binding): Due November 1; Decision: late-December; Deposit Due: January 15
  • Early Action (non-binding): Due November 1; Decision: late-February; Deposit Due: May 1
  • Early Decision II (binding): Due January 1; Decision: mid-February; Deposit Due: March 1
  • Regular Decision (last deadline): Due January 1; Decision: mid-April; Deposit Due: May 1

Transfers
  • Applications: 2,589 Applications Incoming Class: 592 students Avg. College GPA: 3.3
  • Credits: Transfers with less than 30 credits, require SAT/ACT and HS transcript, >30 = College Transcript only from each post-secondary institution the student has EVER attended
  • Requirements: Common Application, College & HS transcripts (if less than 30 credits), FERPA Release Authorization, Registrar Report, Academic Evaluator (recommendation), and Final Report (only for students with fewer than 30 approved credits)
  • Deadlines: April 1 priority deadline, July 1 final deadline (for following Fall); November 1 (for following Spring)

SCHOOLS & COLLEGES

9 Schools and Colleges: Architecture, Arts and Sciences, Business, Communication, Education and Human Development, Engineering, Marine and Atmospheric Science, Music, and Nursing and Health Studies - over 180 undergraduate majors and programs offered.

School of Architecture
  • 5-year bachelor of architecture, professional degree - requires portfolio for admission (both Freshmen & Transfer)
  • Students assigned their own design studio space from freshman year on, accessible 24 hours, students are given keys to the building, 810 drafting tables per studio
  • Study abroad opportunity in Rome, Scotland, and Japan; many site visits
  • Requires students to have a minor outside of Architecture

College of Arts and Sciences
  • Pre-law and pre-med: must let us know that they plan to apply to law school or medical school in their senior year, these are not MAJORS but tracks! Students choose an additional major.
  • The Center for Freshman Advising serves only Arts and Sciences students
  • B.F.A degree in Art requires portfolio review, B.F.A. Theatre Arts requires portfolio or audition. B.F.A. students may only apply Regular Decision (January 1) and must submit supplemental B.F.A. application. These measures do not apply to students interested in B.A. degree.

School of Business Administration
  • Students earn a B.B.A. degree, or B.S. degree in all majors (B.S. more math/science based)
  • Unique Alumni Mentor Program where students are matched up from junior year on with a local alumnus/a who works in the business field; monthly meetings
  • Students are landing coveted internships - Morgan Stanley, Lehman Brothers, Merrill Lynch, Ernst & Young, Dell, ETC, Deloitte & Touche, Accenture, etc.
  • Ziff Placement Center complements work of Toppel Career Center

School of Communication
  • All writing and production courses enroll no more than 16 students, and all students can use equipment early in their careers at UM
School of Education and Human Development

- Three (3) departments: 1) Department of Teaching and Learning (TAL) includes areas in Elementary Education and Secondary Education, 2) Department of Kinesiology and Sport Sciences (KSS) includes areas in Sports Administration and Exercise Physiology, and 3) Department of Educational and Psychological Studies (EPS) has graduate programs.

College of Engineering

- 100% Grad school/job Placement! College of Engineering has in-house Director of Career Planning
- More than 30 specialized laboratories are available, including the biomechanics research lab, the computer-aided manufacturing lab, the robotics lab and the confluent media lab
- IMPaCT, or Integrated Math, Physics and Communication Track, is an interdisciplinary program for all freshmen that demonstrate the importance of math, physics, chemistry and communication
- Ranked #15 in the nation for the percentage of women who were awarded a B.S. in engineering
- Infrastructure - Beyond state-of-the-art academic computing (ViAComp).

Rosenstiel School of Marine and Atmospheric Science (RSMAS)

- Facilities include: 65-acre marine research campus on Virginia Key, 78-acre satellite reception and analysis center, a research vessel
- In cooperation with the graduate program in Marine Affairs and Policy, a five-year dual-degree B.A./M.A. program in Marine Affairs is available

Frost School of Music

- More than 300 student forums, student and faculty recitals, guest artist performances, concerts and lectures are given each year
- Audition required for all majors
- Collaboration between the Frost School of Music and the Cleveland Orchestra

School of Nursing and Health Studies

- M. Christine Schwartz Center for Nursing and Health Studies opened Spring 2007
- Admits students directly to the B.S.N. degree as freshmen. Freshman/Sophomore years: core courses, Junior/Senior: Clinical
- New Bachelor of Science in Public Health (B.S.P.H.)
- Our health science program prepares students for entry into UM Department of Physical Therapy and graduate level health professional programs at other universities
