2. Click on the “Share My Information” tab located on the right-hand side of the page.

3. The “Share My Information” summary page lists individuals to whom you have provided access to your student information. Here you can provide access to new proxies and modify or delete existing proxy access.
4. Accept the **Terms and Conditions** relating to the Federal Family Education Rights and Privacy Act (FERPA) to provide your proxy access to your student record information.

5. Complete the Share My Information form and select which transactions your proxy can access. You have the ability to select one, some, or all of the sharable information under “Transaction Name.”
Once you select “Save,” you will be notified that an email will be sent to your proxy affirming that access has been granted.

After clicking “OK,” a confirmation is posted indicating that the process was successful.

At this point in the process, you will be able to see the status of your actions on your Share My Information summary page. Notice that the status of the transaction is “Submitted” and the Contact Status for the proxy is “Unknown.” This will change once the proxy has completed and submitted all of the required information.
